

Installing Alpari bTrader on Your BlackBerry

You can install the bTrader application from your PC or directly on your smartphone:

1) Install from BlackBerry App World on Your Smartphone:

- Launch BlackBerry App World on your smartphone. This application should come already installed. If you can't find App World, download it through your smartphone's web browser using this link: www.blackberry.com/appworld/download. **Please Note:** This may require a 3G/EDGE connection.
- Enter "Alpari bTrader" into the "Search App World" bar and tap the joystick. In the results, click the line with the Alpari icon. Click "Download" on the following page.
- Before your download begins, you will be asked to enter your BlackBerry ID. If you don't already have a BlackBerry ID, you will need to create one. Look for the "Create a BlackBerry ID" link at the top of the account login page or [register on the BlackBerry App World site](#) using your personal computer.
- After entering your BlackBerry ID, your download should begin. When the download is complete, you can launch the program.

2) Install from the Alpari Site on Your Smartphone:

- In the "Mobile Trading" section of the Alpari home page, go to the "[BlackBerry](#)" tab.
- Click the green "[Download Alpari bTrader to Your BlackBerry](#)" button and confirm the download of the Alpari bTrader application.
- After the program finishes downloading, follow the instructions on your screen.
- You can also download the terminal by entering the following into the address bar of your BlackBerry browser: www.alpari.ru/bbdownload.
- After installing bTrader, you can find the application by looking for the icon with the Alpari logo.

3) Download to Your PC from BlackBerry App World:

- Hook your BlackBerry smartphone up to your computer's USB port.
- In the "Mobile Trading" section of the Alpari home page, go to the "[BlackBerry](#)" tab and click on the grey "[BlackBerry App World](#)" icon.
- You will be redirected to the bTrader page on the App World site. Click "Download".
- When prompted, enter your BlackBerry ID. If you don't already have a BlackBerry ID, you can sign up for one by following the "[Don't have a BlackBerry ID? Create one](#)" link on the page.
- After you log in to your App World account, you will be taken to the "Sync Items" page. You should see Alpari bTrader in the list of applications. Press "Begin Sync" to sync the application to your BlackBerry.
- After syncing bTrader to your phone, you will be able to find the application by looking for the icon with the Alpari logo.

4) Download to Your PC with RIM Desktop Software:

- In the "Mobile Trading" section of the Alpari home page, go to the "[BlackBerry](#)" tab.
- Click "[Download Installation Package to Your PC](#)". The file "Alpari_bTrader.zip" should begin downloading.
- Unzip the file and save "Alpari_bTrader.alx" and "Alpari_bTrader.cod" to your computer.
- Hook your BlackBerry smartphone up to your computer's USB port. If RIM Desktop Software is already installed on your computer, the program should start automatically. If you haven't already installed the program, you can either use the installation disc that came with your phone or [download the program](#) from the RIM site.
- In RIM Desktop Software, go to the "Applications" tab and wait for the program to import a list of the applications already installed on your smartphone.
- Click the "Import Files" button in the upper-right corner.
- In the window that opens up, find the file "Alpari_bTrader.alx" and click "Open".
- "Alpari bTrader" will appear at the end of the list of applications with the status "Pending Installation".
- Press the green "+" button to the right, then choose "Apply" in the lower-right corner of the program.

- Wait for the program to finish syncing the application to your smartphone. When the status next to "Alpari bTrader" changes to "Installed", you can disconnect your phone from your computer.
- You will be able to find the application on your phone by looking for the icon with the Alpari logo.
